| 1        | BDCP Work Plan   |
|----------|--|
| 2        | Terrestrial Resources Subgroup   |
| 3<br>4   | Subgroup Membership: [[To come]]   |
| 5        | Subgroup Membership. [[10 come]]   |
|          | Co-Chair: Dave Harlow, SWC   |
|          | Co-Chair: Campbell Ingram, TNC   |
| 6        |  |
| 7        | Purpose and Scope  |
| 8        |  |
| 9        | To review and recommend conservation measures (protection, enhancement, restoration),  |
| 10       | including mitigation measures, for terrestrial covered species and natural communities |
| 11       | that are designed to achieve BDCP biological goals and objectives for adoption by the  |
| 12       | BDCP Steering Committee. The subgroup will address the following topics related to the |
| 13<br>14 | conservation measures.   |
| 15       | A. Review and refinement of BDCP proposed tidal marsh, inundated floodplain,           |
| 16       | and riparian habitat restoration concepts to improve habitat benefits for              |
| 17       | associated terrestrial covered species while maintaining intended covered fish         |
| 18       | species benefits.  |
| 19       | species cenerius.  |
| 20       | B. Review and refinement of initial draft SAIC conservation measures, including        |
| 21       | avoidance, minimization, and compensation measures.                                    |
| 22       |  |
| 23       | C. Review ISA report for terrestrial resources and provide recommendations to          |
| 24       | SC   |
| 25       |  |
| 26       | D. Review and refinement of initial opportunities identified by SAIC for               |
| 27       | protecting, enhancing, and restoring covered terrestrial species habitats within       |
| 28       | the Delta and Suisun Bay/Marsh.  |
| 29       |  |
| 30       | E. Provide recommendations for refining working draft terrestrial species and          |
| 31       | natural community biological goals and objectives to the Biological Goals and          |
| 32       | Objectives Working Group.  |
| 33       |  |
